

Z100

Cantilever lift with 1 tonnes capacity for light and medium weight vehicles.

Slim and lightweight design makes this the first choice for 5-12 t urban distribution vehicles when payload is the primary concern. Comes with powder painted high strength steel frame and aluminium platform in different sizes and options. A lightweight lift designed to maximise payload and vehicle up time.

- **Light:** 236 kg fully equipped including cables, frame mounts and control unit.
- **Safe:** Slip resistant platform and a rear under-run protection according to the new regulation.
- **Ease of installation:** Mounting kits for all major truck manufacturers, three-piece fixed and bolted under-run bar, and pre-installed power pack makes the lift easy to install.
- **Ease of use:** Double acting tilt cylinders ensure speedy loading and offloading regardless of weather or temperature. Quick opening to minimize waiting time.
- **Low maintenance:** All cylinders fully protected by bellows when lift in stowed position. All cylinders have oil filled piston rod sides for corrosion control.

The Z100 is made to help maximise payload
